

IT'S TIME TO ELECTRIFY YOUR HOME

The ACT is Electrifying - Are you Ready?

The ACT Government has committed to phasing out fossil-fuelled gas by 2045. And the timing couldn't be better — the highly anticipated Labor Government Battery Rebate launches on July 1st.

To help you take full advantage, JML Plumbing & Gas and Meta Electrical & Solar have partnered to bring you turnkey home electrification packages at discounted prices.

To help you take full advantage, JML Plumbing & Gas and Meta Electrical & Solar have partnered to bring you turnkey home electrification packages at discounted prices.

DISCLAIMER: This offer is made under the ACT Sustainable Household Scheme (administered by the ACT Government in partnership with Brighte). Eligibility, rebate amounts and terms are set by the ACT Government and are subject to change Climate ChoicesSolar Choice.

- Rebates are only available to eligible ACT residents, for new battery systems installed alongside solar PV, and only one rebate applies per household.
- Meta Electrical & Solar & JML Plumbing & Gas are Clean Energy Council-accredited installers (e.g. licensed electrician or plumber). Funding is limited and subject to availability. Your actual rebate amount will depend on system size, installer quotes, and final approval by scheme administrators.
- You should confirm your eligibility, rebate value and the Scheme's current terms and conditions at <https://www.climatechoices.act.gov.au> before proceeding.
- Meta Electrical & Solar & JML Plumbing & Gas are independent service provider and is not an agent or representative of the ACT Government or Brighte.
